Vinyl Boot..... Black.....IDI IBOOTBL..... \$20.95

Swivel "Ball" Column Floor Mount

The unique feature of the swivel ball column floor mount is that it looks attractive on both the interior and engine compartment side of the firewall. Column mount measures 4" O.D. and the assembly is not "split" so the column will have to be inserted through the mount for installation. Allows 27° angle through floorboard. Available for the 1-3/4" columns by special order. Polished finish.

2" Column.....	IDI I4155P.....	\$114.95
2-1/4" Column	IDI I4255P.....	\$114.95

Split Aluminum Column Floor Mounts

"Ball & socket" for easy alignment of column through firewall and seals out engine compartment. Flat edges to allow for extra clearance for either brake pedal or bend line at angled toe-board to vertical firewall. Allows up to 15° column angle through floor. Recessed mounting hardware included. 4-3/8" diameter across the rounded X 3-1/2" across the flats. Polished.

2" Diameter Column	PRR 4822	\$59.95
2-1/4" Diameter Column.....	PRR 4827	\$59.95

Steering Column Trim

Machined aluminum trim circle is split-n-pinned so installation is possible without removing column. Rubber seal accommodates columns from 1-3/4" to 2", may be trimmed for larger columns. Trim ring measures 4-13/16" outside diameter and is machine satin finish.

Steering Column Trim.....	STW B03.....	\$41.95
---------------------------	--------------	---------

Oval Brake / Clutch Trim

Trim is split-n-pinned so installation is easy without removal of pedal assembly. Measures 2-1/4" outside diameter with 5/8" X 1-1/8" slot and is in machine satin finish. Stainless countersunk screws included.

Brake / Clutch Pedal Trim.....	STW B02S	\$20.95
--------------------------------	----------------	---------

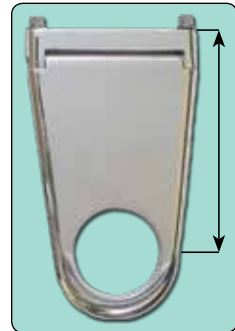

Swivel Aluminum Column Drops

Measured From Top To Center of Column Hole - Available in 1" Steps From 2" to 7"

Machined from billet aluminum these column drops have a smooth face and rounded edges. They feature a swivel top making them easy to mount to your dash. Column drops for GM column feature cutouts for ignition switch and headlight switch rods (if column is equipped) and cutout for turn signal wires. All drops listed are in polished finish, paintable column drops available as a special order. Any size, any length \$62.95

ididit

Ididit Column Measurements

ALL Ididit universal columns measure from the very end of the output spline to the end of the large diameter portion where the steering wheel adapter meets. Do not include the short spline extension that the adapter fits on to.

Classic Steering Columns**1-3/4" Tube diameter – 3/4"-36 Spline**

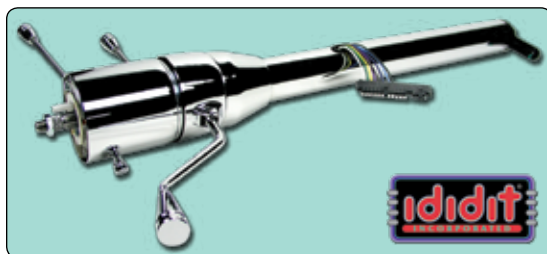

The Classic style steering column has that great 40's look. This straight column is sleek and cool with its stylish head and smaller tube diameter. It is available in plain paintable steel, chrome or black powder coated and features turn signals, four way flashers and horn. Any steering wheel adapter for '69-'94 GM columns will fit.

Universal Tilt & Shift Steering Columns**Steel 2-1/4" Tube, 1"-DD Output / Aluminum Available**

Shift arm at the base of the column is adjustable and removable so that installation is easy without odd shaped holes through firewall. This adjustable position arm makes getting shift linkage adjusted easier and fits *Kugel* or *Lokar* column shift linkage kits. Columns also feature 5 position tilt, self canceling turn signals, 4 way flashers, horn wiring and includes aluminum/stainless column dress up kit for

turn signal, tilt lever and emergency flasher button. Uses GM internals with the industry standard GM 3-7/8" long turn signal plug and use steering wheel adapters for '69-'94 GM applications.

Retrofit Series Steering Columns

Columns for Specific Make & Model Cars and Trucks

Many More Applications Available - Check Our Web Site

Columns listed in this section have unique features which make them specific to replace the original steering column for these applications. Most applications are as close to bolt in installations as possible and assume that the firewall and dash have not been modified from their original state. These columns are based off of '67-'94 GM internals so an aftermarket wheel with adapter will be required but the gripping surface of the new wheel will be close to the gripping surface of the original column & wheel assembly in most installations. Additional accessories such as harness adapters, universals and shafting will be required depending on your application.

Old School Columns & Accessories

1-1/2" Tube diameter - 3/4"-DD Output

New from Ididit is this super simple column that you cut to length. Column comes 36" long but you take the bottom bearing out of the column tube and cut to length and put it back together. Column center shaft is 7DD and features the standard 3-bolt steering wheel bolt pattern on the top. No turn signals or horn as supplied but a horn adapter kit is available if you want one.

Because of this columns unique outer tube diameter the drops and floor mount are offered here.

Original Steering Column Lower Bearing Support

Many older vehicles originally came with a one piece steering box shaft which ran through the column to the steering wheel. When replacing the steering box that shaft must be cut. This kit allows you to retain the use of your factory column and inner shaft. Aluminum bushing fits inside the column tube and bearings sandwich the bushing and are held in place with lock collars allowing smooth rotation.

Billet Specialties "Half-Wrap" Steering Wheels

Colors & Designs of Front Grip Rings For "Half-Wrap" Steering Wheels

29001	29009	29002	29003	29004	29005	29006	29007	29008	29013	29012	29000
\$46.95										\$61.95	\$36.95

The half-wrap steering wheels consist of two pieces, the wheel frame and a bolt-on half wrap front grip. By offering the two pieces individually it is possible to combine any frame with any half wrap grip and put together a combination of style and color. The highly polished wheel frames are manufactured from premium billet aluminum with finger notches machined into the back side. All wheel designs offered in 14" diameter and select designs also available in 15-1/2" diameter. Wheels have the common 9 bolt pattern to fit either Billet Specialties or Lecarra steering wheel adapters.

Aluminum Horn Buttons

Billet Specialties dome style horn buttons fit above wheels and other aftermarket 9-hole steering wheel adapters. These horn buttons are a single wire which is what most GM columns require.

Standard Size Buttons - The diameter of these buttons leave the mounting bolts of the wheel to the adapter exposed.

Screw Kit for Billet Specialties Adapter	BLT 31000-900	\$3.95

9-Bolt "Shorty" Steering Wheel Adapter

Adapts '69-'97 GM Column (including Ididit) to 9-Bolt Steering Wheel Pattern

Shorty adaptor moves the steering wheel 2" closer to the dash than the 'standard' adapters. Care should be taken when using this adaptor as it will decrease the clearance between the wheel and turn signal lever, and/or column shifter arm. Modifications to these levers may be necessary. Horn button is included with this adapter.

Polished Finish.....	IDI 2201100040.....	\$119.95
Chrome Finish.....	IDI 2201100020.....	\$159.95

Billet Aluminum Steering Wheel Adapters

GM Column Applications - Fits Billet Specialties & Lecarra 9 Bolt Steering Wheels

No castings, these are cut from solid 6061-T6 billet aluminum and feature "blind" mounting holes where the steering wheel bolts to the adapter. Available only for the specific GM column applications listed. A combination of the best in materials and the best polish!

'49-'66 (Most Applications)	BLT 31322	\$57.95

Telescoping Column (2" Travel).....	BLT 31324	\$72.95
Telescoping Column (3" Travel).....	BLT 31323	\$72.95

Polished Covered Horn Button

An inexpensive alternative to a billet aluminum horn button this button offered from Lecarra is essentially their plastic horn button with a polished aluminum cover. This easy ad-on really makes a polished center wheel look complete.

Polished Button.....	LEC 3301.....	\$30.95
----------------------	---------------	---------

V-8 Logo Horn Buttons

Fits Lecarra & Billet Specialties 9-Bolt Steering Wheels

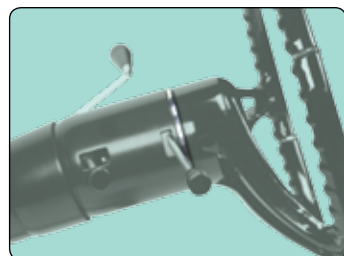

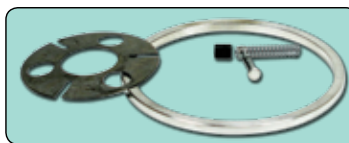

Machined aluminum horn buttons feature V-8 logo engraved in the center button. Two sizes available. Larger or "full cover" button has a large outer bezel to hide the nine wheel mounting screws when installed. The smaller button was originally manufactured for the Lecarra Newstalgic banjo wheel but can be used with any 9-bolt Lecarra or Billet Specialties adapter. Both are polished finish.

Standard Size Horn Button	LEC 3465.....	\$65.95
Large "Full-Cover" Horn Button	LEC 3455.....	\$65.95

'55-'68 Original GM Steering Wheel to '69-'94 GM or Ididit Column Install Kit

Kit includes spacer ring and horn contacts to adapt an original '55-'68 GM steering wheel to an Ididit steering column. Drilling/machining a 3/8" hole close to the center of the wheel is required and spacer ring is glued to the outer bottom portion so final finishing and painting of this outside lower portion of the wheel will be required.

'55-'68 GM Wheel to Ididit Column Install Kit.....	IDI 2612100040.....	\$27.95

Suicide Door Lock Teardrop Aluminum Knobs

Knobs of this shape are usually used on suicide door locks for two reasons.
1) You have enough leverage to twist the dead-bolt against its spring detent and
2) because you can visually see if the lock is set just by the angle it is pointing.
Measures 1-5/8" long X 3/4" high X 5/8" thick. Satin finish and sold in pair sets.
Tear-Drop Knobs.....Fits 1/4" Shaft.....STW B-RHL..... \$34.95

Aluminum Door Lock Knobs

Insulation**Double Sided Foil - 4' X 6' Rolls**

A thermal and acoustic insulation material. Protects against heat, cold and noise. Made with multi-layered nylon fibers, specially formulated and treated with a nontoxic fire-retardant and bonded to an aluminized material. Blocks up to 97% of radiant heat.

Thermal properties: Radiant heat is the most powerful heat that penetrates the walls, floors, ceilings, and doors. *The Insulator* provides a tough barrier to these invisible infrared heat rays. *The Insulators* unique nylon fiber pad provides outstanding conductive heat transfer and stops the direct flow of heat.

Noise Insulation: The aluminum foil layers reflect high frequency sound back toward the source. The nylon fiber pad absorbs any penetrating low frequency sound waves and reduces vibration.

Double Sided Foil INS BLIP12406 \$34.95

**Sticky-Stuff**

A spray adhesive ideal for installing *The Insulator* insulation. One can should install two 4' X 6' rolls of *Insulator* material. Features adjustable web width nozzle.

Sticky-StuffINS BLISS16OZ1 \$10.95

**Insul-Tape**

Ideal for joining seams, sealing edges, water proofing and mending damaged *Insulator* insulation foil.

Insul-Tape (30' roll)INS BLIT2030-1 \$4.95

Floor & Tunnel Shield - Heat & Sound Insulation**Paramilitary Used on Under Vehicle Locations – Anywhere to Reflect Heat.**

Provides heat protection in areas where high temperatures are always present limiting heat transfer on firewalls, transmission tunnels and front toe boards. Embossed 10 mil aluminum face bonded to 1/8"

composite glass-fiber core and backed with a high temp super strong pressure sensitive backing. Floor & Tunnel Shield withstands up to 1750°F of direct continuous heat. Only 3/16" thick, this product can be shaped and trimmed for a custom fit and is ideal for minimal clearance areas.

2' x 21" Floor & Tunnel Shield (3.5 sq. ft.).....DEI 50501..... \$39.95

Spring Loaded Escutcheon (Each)..... VIN B-48139-A \$5.95

StreetWorks

Narrow Neat Nobs Latch Release Kit

Designed for use with bear-claw latches. Simple release system attaches directly to the release arm on the latch. Push down on the knob to release the latch. Knobs and trim plates are machined aluminum satin finish. Trim plates measure 1-5/16" x 1"

Turned Knob Style STW B14NOT\$53.95

Smooth Knob Style STW B14NOS\$53.95

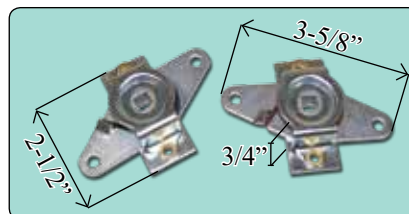

Universal Outside Door Handle Regulator

5/16" Square Drive – Fits Early Ford Outside Door Handles

Universal regulators mount to the inside of the door and receive the square drive from the outside handle. Connect cables or rods off these regulators to door latch. Not a direct bolt-in for any application but they are something to work with when you have to fabricate the system anyway. Spring loaded to return to the ready position.

Universal Handle Regulators (Pair) SRS 155\$52.95

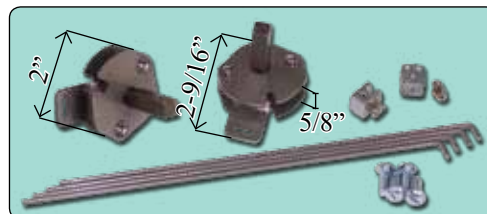

Universal Inside Door Handle Regulators

3/8" Square Drive - Fits Early Ford Inside Door Handles

A great alternative to damaged or missing original regulators. These can be mounted anywhere on the door which makes them even more desirable for use with custom upholstery designs. Regulators are spring loaded to return the handle to the original position.

Universal Door Handle Regulators (Pair) CAR EZH-1\$69.95

Oval Door Pulls

Polished billet aluminum interior door pulls machined from T6 billet aluminum and have pocket for a comfortable feel as well as a soft touch pad in the bottom. Comes complete with brackets, hardware and cut-out template. Measures 5" long X 1-1/2" wide X 3/4" tall (1/2" into arm rest).

Polished Oval Door Pulls (Pair) TRI ODPP \$105.95

Aluminum Door Pulls

Available in Midnight Series in Black Anodized

Billet aluminum door pulls are designed to recess into armrests and are wide enough for 4 fingers. Both styles feature rolled top edges with the "crescent" style having a straight edge to butt against the door panel. Pulls mount with two stainless screws down from the top and come with metal brackets so the pulling force transfers directly to the door and not the door panel. Polished finish, satin & black by special order. Sold in pair sets.

Rectangular Throttle Pedal, Brake & Dimmer Switch Pads (Universal)

All Available in Black Add "X-" to Number, Same Price

Throttle & Brake Dimension Comparison		
	Gas Pedal	Brake Pad
Standard	1-1/2" X 4"	3" X 2"
XL Series.....	2" X 5"	3-3/4" X 2-3/4"

Throttle Pedals: Throttle pedals feature spring loaded foot pad with splined swing arm for adjustable pedal pitch Arms can be reversed on pivot and have "windows" to enhance appearance. Available in two sizes in either chromed steel or aluminum with rubber inserts.

Brake Pads: Brake pads are made to match each of the

throttle pedals offered. All aluminum pads feature two mounting locations for the supplied 1/2"-20 stud for center or offset mounting for column clearance. Chrome brake pads have stud welded into the center of the pad.

Dimmer Pads: Dimmer pads fit just about any dimmer switch because they are held to the switch with set screws.

Lokar Retrofit Throttle, Brake & Clutch Pedal Pads

All Available in Black Anodized *Midnight Series*

More Applications Available - Check Our Site for More Information

All pedals and pads listed here are specifically manufactured for particular make and model cars and trucks and replace the original equipment. Throttle pedals attach to the firewall in the O.E. throttle pedal hole/mounts and in most cases change the original hard linkage to a flexible throttle cable. Brake and clutch pads also attach to the original pedal pads after the rubber is removed which have not been modified. All listed pedals are satin aluminum with rubber inserts.

Billet Throttle Pedals, Brake, & Dimmer Switch Pads

Black Anodized Listed - Polished Finish Available

Throttle Pedals: Pedals are CNC machined for a nonslip surface and feature a wider pivot base for added stability. Use dual Delrin bushings for smooth operation and has a 1:1 pedal ratio, good for all carbs. Pedal base offers left or right mounting positions. Pedal orientation is infinitely adjustable and the arms can be reversed for additional clearance if needed.

Brake Pads: CNC machined nonslip pedal pads offer two mounting positions, center or offset. 1/2"-20 stud is included for use with popular brake assemblies.

Dimmer Pads: Machined nonslip surface w/stainless steel setscrew.
